

BIG SIX MEETING TO-MORROW TO ACT ON STRIKE MIX-UP

Walkout of 1,000 Members
Without Formal Strike to
Be Taken Up.

Interest in the printing situation in New York centres to-day in tomorrow's meeting of Typographical Union No. 6. Leon H. Rouse, president of "Big Six," will report the failure of the negotiations with the employers' committee and the refusal of employers to agree to the inauguration of the 44-hour week. In addition to this, more than 1,000 of the 7,000 of "Big Six" in walking out will be taken up.

Many members of "Big Six" predicted that a strike vote would be taken at tomorrow's meeting and it was admitted that there were sharp differences of opinion between the radical and conservative elements of the union.

Marsden G. Scott, President of the International Typographical Union, who was expected to come and order "Big Six" to instruct its members to return to work where they have walked out in sympathy with the succeeding pressmen, is detained in Indianapolis and sent here to represent him Bert Brady, Chief Organizer of the International.

A conference was held yesterday afternoon in the Hotel Pennsylvania by Leon H. Rouse, President of "Big Six," Col. William Green, representing the Association of Employing Printers, Mr. Brady, and F. A. Sileo, Industrial Director of the United Typothetae of America.

Mr. Rouse, questioned by the others, repeatedly denied that he had sanctioned members of his union to join the pressmen in their strike, and reiterated that he tried to induce men to return to work when cases were brought to his "official" attention.

"The situation does not seem any nearer a solution than yesterday," said Mr. Rouse after the conference. He refused to talk further.

These proposals were made to Rouse to convey to the members of "Big Six."

1. Arbitration agreement in all contracts to overlap the date of expiration of contracts while negotiations are in progress.

2. A 44 hour week, effective May 1, 1921.

3. Approval of the International Typographical Union.

Mr. Rouse said he would submit the proposals to chairmen representing all the shops at a strike and to the entire membership of his union at a meeting to-morrow.

The Printers Publishing Company, publishers of the Literary Digest, were the victims yesterday of a walk-out of 50 members of "Big Six," although the pressmen are still at work.

At a meeting of 152 periodical publishers yesterday resolutions were unanimously adopted in their stand against what they term the radical demands of the outlaw unions. The report that certain publishers have granted demands was denied.

Rose Schneiderman, Secretary of the Women's Trade Union League, announced that there will be a meeting this afternoon at No. 7 East 15th Street of copyholders to unite with that branch of the printing industry.

TOBACCO HOLDING COMPANY.

New A. T. Securities Corporation to Acquire Tobacco Common.

The incorporation yesterday in Delaware of the A. T. Securities Corporation caused a great deal of interest in Wall Street for the reason that it is to be the holding corporation to take over the American Tobacco Company's common stock.

It was announced that the new company will offer four shares of its stock for each share of American Tobacco common, and thus far about \$10,000,000 may value, or about 25 per cent, of American Tobacco common has been acquired. It is expected that practically all of the latter stock will be exchanged.

Jadwin Helped Goethals to Build Panama Canal.

WASHINGTON, Oct. 4.—It is known here that Gen. Jadwin, with Lieut. H. A. Bowie of the British Military Control Office at Warsaw, was en route to Kiev via Fastoff. It had been feared they were the two officers reported killed.

Gen. Jadwin was construction engineer on the Panama Canal with Lieut. Goethals. During the war he was in command of the service of supply for the American Army in France. Secretary Baker expressed surprise and anxiety when he was informed of the rumor.

Victim of Cop's First Arrest
Accused of Carrying
"Hidden Weapon."

Tom Harrison is a handsome young cop who has been on the force for two months. Up to 5:30 o'clock this morning he hadn't made an arrest. At the hour mentioned he was walking in the shadows of Fifth Avenue, near 45th Street, when he saw a man suddenly spring into view from somewhere and had a passing taxi.

The stranger made a shift of something from his right hip to his left as he ran. In the radiance of the electric lights the young policeman saw the flash as the transfer was made and thought of a Harlem hold-up and a murder last night flitted through his mind. Quite out of breath, but otherwise fresh and vigorous, his hand was on the stranger's shoulder as he was about to step into the cab.

Harrison ran his hand over the man's hip and felt the "gun." Off to the East 15th Street Station he hurried his prisoner and booked him for violating the Sullivan law. Then, and not till then, the prisoner was "frisked," and out of the left hip was fished a pint flask.

Jeremiah O'Leary, of No. 237 East 55th Street, turned a sarcastic glare on the young cop, but Jeremiah O'Leary didn't know police methods. A "charge" had been made and the chief lieutenant on the desk said that it would have to stand until disproved in court. So they put Mr. O'Leary into a cell until it was time to take all prisoners to the Yorkville Police Court.

When Magistrate Dumas heard the story, his expression was one of disgust tinged with dismay. He declared that the detention of Mr. O'Leary was an outrage and promptly gave him an honorable discharge. Mr. O'Leary was doing some hard thinking leaving court.

48,738 JOBS FOR HEROES.

That Number Provided by Brooklyn War Camp Community.

In the past eight months, when the search for positions for ex-service men was keenest, 48,738 jobs were found by the Brooklyn office of the New York War Camp Community Service at No. 315 Montross street. During that period 1,732 ex-service men applied to the Community Service for jobs, and of that number the high total of 4,392 actually "landed" a position. The unused jobs with full data on them were turned over to the Community Service to the Federal Employment Bureau.

Assisting the Community Service in its work was an efficient group of seven men from the Women's Naval Service Inc., of which Mrs. Maude Canfield is president.

SUGGESTS MAYOR FIRE HIMSELF FOR SPENDING TOO FAST

Citizens' Union Quotes Hylan
for Authority to Prosecute
in Expense Shortage.

The Searchlight for September, published by the Citizens' Union, contains the following, under the caption "The Mayor Versus Hylan: What Will the Mayor Do About the Mayor's Refusal to Obey the Mayor?"

"On June 6, 1919, application was made to the Board of Estimate for a transfer of \$1,500 from the appropriations for the Fire Department, Cycle 1639, General Plant Equipment, to the Mayor's appropriations codes as follows:

"Code 32 Supplies \$300
" 33 Equipment 150
" 35 Messenger service 50
" 36 Contingencies 700

Total \$1,500
"Transfer of funds was authorized at a meeting of the Board of Estimate June 20, 1919.

"The budget allowances for the Mayor's Office which were thus replenished were:

"Code 32 Supplies \$300
" 33 Equipment 150
" 35 Messenger service 50
" 36 Contingencies 700

Total \$1,500
"Now turn back a bit and see what the Mayor had to say of this sort of procedure last year.

"Shortly after the approval of the 1919 budget was made final by his signature, Mayor Hylan sent a letter of instructions to each department which, in part, read as follows:

"There are sums of money appropriated for the administration of each department and such sums are divided into specific amounts under each code number for particular purposes. Each sum is provided for the payment of the expenses of that particular purpose or object for twelve months and not more than one-twelfth of such amount can be used legally in any one month.

"It is gross or culpable neglect of duty to spend more than one-twelfth of the money provided for in the budget for any purpose or object in any one month, and any violation of these sections by the head of the department and any of his subordinates will be sufficient cause to make necessary a change in the department as well as being subject to criminal prosecution.

"Heads of departments in the past have not given the most serious consideration that they should to communications from this office. The fact that I am calling this matter to your attention should be sufficient.

"In view of the fact that the funds for the maintenance of the Mayor's office have been exhausted in six months, and that Mayor Hylan has explicit instructions and his interpretation of the law, the query is pertinent whether Mayor Hylan will now remove the incumbent of the Mayor's office and call upon the Prosecuting Attorney of the county to commence criminal proceedings against Hylan for violating Hylan's instructions."

\$6,000 FOR WATCHMAN.

Chicago Benefit for Man Who Tried to Avert Tanner Tragedy.

CHICAGO, Oct. 4.—More than \$6,000 for the benefit of John Miller, a railway watchman, who was injured recently when he sought to save the lives of William Fitch Tanner and his wife, who died together when Mrs. Tanner's car was struck by a runaway train, was realized last night at a testimonial performance of actors and actresses now touring in Chicago. The amount will be added to that raised by newspapers in Paris, New York and elsewhere.

UP-STATE WOMEN BLOCK NAMING OF MRS. J. S. CROSBY

Democrats Resent Selection of
City Chairman by National
Officers.

ALBANY, Oct. 4.—A disagreement prevented the Woman's State Democratic Party in session here from naming a Chairman yesterday. Action was put over until after election. Up-State women insisted on the selection of Mrs. Albert H. Hildreth, a prominent club woman of Syracuse, who managed Gov. Smith's campaign for women voters, instead of Mrs. John Sherwin Crosby of New York.

Mrs. Crosby was put at the head of the Democratic women by National Chairman Homer S. Cummings and Norman E. Mack, and some of the women resented their interference in selecting her. They demanded that they be allowed to make their own choice. They are insisting on equal representation in county organizations, a matter which will probably be acted on at a meeting in Buffalo on Oct. 20.

Plans of the Committee of One Hundred New York State Democrats to back William G. McAdoo for the Presidential nomination next year are more and more in evidence. Others on the committee's slate are former Gov. Martin H. Glynn for the United States Senate and either Franklin D. Roosevelt or Byron Newton for Governor. Invitations to 350 prominent Democratic men and women will be sent out within the next two weeks, urging them to either join the committee or actually support it.

It is the committee's intention, it is said, to shelve both Gov. Smith and State Chairman W. W. Farley. The Governor's friends, however, declare that he is still in the running. They point to his declaration to the conference of Democratic women that the Republicans would not get away with their demand for a Republican administration on the ground that Smith "did nothing," as long as he keeps his voice and strength.

JAMES GORDON BENNETT'S EXECUTORS ANSWER SISTER

Turned Over All Securities of Trust
Fund Left by Father, Is Reply
to Jerome's Demand.

Eugene Higgins, Rodman Wamsucker and the Guaranty Trust Company, as executors of the will of James Gordon Bennett, yesterday answered in the Surrogate's Court an order obtained by William Travers Jerome directing them to turn over to him, as trustee of a fund established by James Gordon Bennett for the benefit of his daughter, Mrs. Jeannette Bell, certain securities of the fund supposed to be in their possession.

The executors assert that they turned over to Mr. Jerome last January all the securities belonging to the trust fund for Mrs. Bell then in their possession.

The younger James Gordon Bennett was the trustee of the fund established by his father for his sister, and after his death was succeeded by Mr. Jerome.

The three executors of the Bennett estate say there was no accumulation of income belonging to the trust fund at the time of Mr. Bennett's death. Surrogate Fowler reserved decision.

CHARGES BANK WAS SHUT FOR POLITICAL REASONS

Editor of Non-Partisan Leader of
St. Paul Declares Fargo Institu-
tion Is Victim of Conspiracy.

ST. PAUL, Oct. 4.—Oliver S. Morris, editor of the Non-Partisan Leader of St. Paul, official organ of the National Non-Partisan League, issued a statement here to-day regarding the closing of the Scandinavian-American Bank of Fargo yesterday, in which he says: "Officers of the bank state they expect to start proceedings against the State officials on the grounds of conspiracy to wreck the bank for political purposes."

Mr. Morris in his statement says: "The Scandinavian-American Bank has been meeting all its obligations without even a suspicion of unsoundness. But Attorney General William Langer and Secretary of State Thomas H. Hall, who constitute a majority of the Banking Board of North Dakota, and members of the Non-Partisan League, formed the plot to close the Scandinavian-American Bank some weeks ago."

"The league has been doing a large part of its business through this bank and the bank has made large loans to the league and its subsidiary organizations, all, however, secured by collateral in value to the loans made."

"When I left Bismarck yesterday it was expected that the bank would be reopened within a week or ten days."

BOLSHEVIKI READY TO MAKE PEACE

But Blockade Must Be Lifted and
Operations Ended, Says
Chicherin.

PARIS, Oct. 4.—George Chicherin, Russian Bolshevik Foreign Minister, in a message sent broadcast by wireless and received here yesterday, says:

"Our intentions regarding peace remain the same as when the Bullitt mission arrived. We are ready to make peace at any moment, provided military operations are stopped immediately and the blockade is lifted. We have not imposed, and we do not wish to impose, communism on anybody."

William C. Bullitt, a member of the American Peace Delegation, in testimony given recently before the Senate Foreign Relations Committee, said he had been sent to Russia in February to learn the terms upon which the Soviet Government would agree to stop fighting and make peace.

The Lenin peace proposals, he testified, included, among other things, an armistice for two weeks, subject to extension; raising of the economic blockade, immediate withdrawal from Russian territory of all Allied troops, no further military aid to be given to anti-Soviet Governments, and recognition of responsibility for Russia's foreign debts.

Chiropractic For Health

The heart, as well as all vital organs of the body, is controlled and derives its vigor and capacity from the nerves. If the nerves serving the heart are interfered with, some form of heart disease will surely follow; conversely, it is the contention of Chiropractic that when the heart shows symptoms of disease, the cause may be traced to interference with vigorous nerve action.

There is only one place in the body where nerves are forced to pass between bony structures—the backbone. If certain vertebrae are by any cause forced from their proper alignment, pressure will result on nerves that control the heart. When such pressure is exerted the nerves may become atrophied and heart weakness and disability result.

All forms of heart incompetency are traced by Chiropractic to this cause. Chiropractors assert that in the great majority of cases of so called "heart trouble," they have brought about wonderfully beneficial results by readjusting the misplaced bones of the spine, thus freeing the nerves and allowing it to regain its normal vitality and efficiency.

Before consulting a Chiropractor always make inquiry of the Chiropractic Bureau of Public Information. Address all inquiries to C. B. Box 50.—The Evening World, New York City.
